**REACTED CHROMIUM**

**CLINICAL APPLICATIONS**
- Provides Highly Absorbed Chromium for a Variety of Protocols
- Supports Blood Sugar Balance Already Within Normal Levels
- Maintains Healthy Insulin Balance

**Overview**

Chromium is a trace mineral essential to human health. According to the United States Department of Agriculture, approximately one in ten Americans achieves the minimum recommended daily requirement for chromium (50 mcg). Supplementing chromium can help maintain healthy levels within the body. Absorption of chromium from the intestinal tract is low and chromium reserves are easily depleted with high-sugar diets and excessive exercise, but absorption can be enhanced with niacin. Once chromium is properly absorbed, it is stored in the liver, spleen, soft tissue and bone. Chromium is considered a cofactor of insulin, the hormone responsible for regulation of the metabolism of carbohydrates, fats and protein. Chromium acts as a seal between insulin and the receptor sites on cell membranes, supporting regulation of sugar and glucose transport into the cells. Chromium is essential to the efficacy of insulin in the body and supports blood sugar balance already within normal levels. Some studies indicate that taking chromium supplements can also contribute to bone health and longevity.

**Blood Sugar Balance**

Chromium deficiency impairs the body’s ability to efficiently use glucose to meet its energy needs and raises insulin requirements. Experts suggest that this role makes chromium supplements essential to maintain healthy insulin balance and support blood sugar balance already within normal levels.

**Fat Metabolism**

In some studies, supplementing chromium at 150 to 1,000 mcg/day has been shown to support healthy HDL, LDL and triglyceride levels.

**Directions**

1 or more capsules per day or as recommended by your health care professional.

**Does Not Contain**

Gluten, yeast, artificial colors and flavors.

**Cautions**

If you are pregnant or nursing, consult your physician before taking this product.
